### **MEDICARE AND CHIROPRACTIC CARE**

Medicare is playing an increasing role in helping people obtain chiropractic treatment. We feel that our patients deserve the best possible chiropractic care we can provide. In an effort to maintain our high quality of care, we would like to share some Medicare facts with you:

- > Medicare pays a large portion of the treatment, leaving the patient a small co-payment. If you have other coverage, you may not have a co-payment
- > Medicare usually covers up to 24 visits per calendar year
- > We file all the necessary paperwork for you

**If you have any questions concerning your Chiropractic Medicare benefits, please call and we'll be happy to discuss them with you!**

**(916) 944-1444**

### **AUTOMOBILE INSURANCE AND MEDPAY**

Many auto policies have an optional insurance plan called Med-Pay. Med-Pay stands for medical payments. It is insurance that covers your medical payments if you are involved in an automobile accident. Here are some of the benefits of Med-Pay:

- ❑ All occupants of the vehicle are covered for injuries
- ❑ Med-Pay pays directly to the medical provider
- ❑ The insurance company recovers medical payments from the at fault party
- ❑ Coverage is inexpensive: mine runs \$60.00 a year for \$100,000 of coverage

If you do not have Med-Pay or need more information, you may call our office or contact your insurance representative. This is a very economical way to make sure you are able to get medical treatment quickly and without any out of pocket expense!
